ABSTRACT (250 words or less):

Rougeou Hall Room 211 is used for the College of Engineering's CAD instruction, spanning all 6 departments in the college. Frank's International was generous enough to donate monies to completely refurbish Rougeou 211 with 49 computers, desks, wide-screen monitors, as well as a completely furnished podium for classroom instruction. All of this was completed in the Spring of 2013. For the last year, some of the components of the existing podium have failed. We have "hobbled along" but have reached a point where the component replacement is critical for the "normal" operation of such a large lab.

Instruction Sheet:

1. Complete the cover page.
2. Complete the abstract page.
3. Give a description of your proposal in 12 pt. font, single spaced, addressing the following points:
 - a. Purpose of grant and impact to student body as a whole: **Funding of this grant will enable students and faculty from all departments in the College of Engineering to have the learning experience they deserve. It will provide instructors the tools necessary to accomplish this, being able to use a document camera, large screen monitors, and a provision for the student to contact the instructor from their workstation for more efficient use of the instructor's available time to show them, from the podium, clarification.**
 - b. Projected lifetime of enhancement: **We expect the improvements to the podium to last at least 10 years.**
 - c. Person(s) responsible for
 - i. Implementation: **Harvey Ozbirn**
 - ii. Installation: **Howard Industries**
