## **Abstract**

This proposal seeks funding for an upgrade to room 143 in Angelle Hall. The envisioned upgrade would add an 86" flat-screen monitor, a power plate, wall-mounted speakers, and stackable chairs. These classroom changes would enrich our students' learning experience and provide a space for a more versatile teaching environment.

The technology in this grant would provide students studying Minor Brass Instruments, Guitar, Button Accordion, Piano, Opera Workshop, Cajun and Creole French Vocal Performance, Traditional Music Ensemble, and Commercial Music Ensemble. It would not only enhance student learning within classes, but it will directly impact 60-100 students in the major for whom a classroom like this is critical to their learning and professional preparation, and in turn, will impact students across campus by exposing them to different types of music taught on the UL campus.

### **a. Purpose of grant and impact to the student body as a whole.**

This grant aims to update Angelle Hall 143 by adding 86" flat-screen monitor, a power plate, wall-mounted speakers, and stackable chairs. This STEP application both describes the technology currently held and proposes the following acquisitions:

1. Currently, Angelle Hall 143 contains 20 wooden chairs with tablet arm desks and is not ergonomically designed for the diverse students who use the room. There are significant implications of using the existing chairs, including inflexible space layout, negatively impacting collaboration necessary for ensemble groups, and the chairs are not conducive to playing instruments as they negatively affect the correct sitting position and are uncomfortable during long practice sessions. The specified industry standard chairs promote good posture, enable better musicianship through alignment technique, eliminate obtrusive elements that may damage instruments, and are designed for music environments used by diverse user groups. If this grant is funded, the students can work in an interactive classroom, incorporating multimedia resources into the learning experience and creating a comfortable learning environment.
2. These upgrades will offer interactive visual aids, music videos, and digital presentations, enhancing students' engagement and comprehension. The multimedia additions to this room will help students study and practice and facilitate master classes and guest artists from around the country and world. The Traditional Music Program, Music Business Program, and Recording Arts Program often have remote guest artists/lectures/masterclasses with artists from all around the globe, and having this

ensemble-centered space appropriately set up to support those kinds of opportunities will enable us to dramatically increase the number and scope of guests that can interact with our students.

These updates will transform Angelle Hall 143 into an invaluable classroom and student workspace. It will enhance the quality of music education, aligning with our mission to provide exceptional learning opportunities for all our students.

**Impact on the student body:** It is one of the most heavily used classrooms, with students using it up to 50 hours a week.

**b. Projected lifetime of enhancement.**

The flat screen should last at least six years, at which point replacement is recommended. The chairs and other equipment should last longer than that projected timeframe.

**c. Person(s) responsible for.**

- i. Implementation: Donny Broussard, Director, Digital Media Resource Center (College of the Arts)
- ii. Installation: Donny Broussard
- iii. Maintenance: Donny Broussard
- iv. Operation: Sara Birk
- v. Training (with qualifications): Assigned Faculty

**d. Purpose and justification for each of the items listed in the Budget Proposal.**

We are a flats screen monitor \$2,818.98, a wall mount \$378.61, Pan and Tilt camera/mic \$1,172.22, cables and connectors \$764.13, and 20 chairs \$2,240.00, plus labor \$1,250.00 for a total of \$8,623.94.

TERMS

I accept this proposal and hereby authorize Go Media, LLC to proceed with the installation of the included systems at the facilities of ULL constructing at Angelle Hall Lafayette, La as described in the totality of this document. I further authorize Go Media, LLC to be granted the facility access that will be required to complete this project in a workmanlike and timely manner and for payment to be made to Go Media, LLC. In keeping with the Terms of Payment listed above. It has been made clear to me that there exist no understandings regarding this project with any relevant party unless and until ULL and Go Media, LLC agree to such additional or alternate understandings in writing. Project cost and pricing are dependent upon a continual flow of work without interruption or delays imposed by ULL or their staff, construction, other building trades or any other party, and additional costs may be incurred by ULL from Go Media, LLC. If such delays result in additional costs that are not covered by the pricing in this proposal. I agree that any additions to and/or deletions from the materials and labor to be provided by my acceptance of this proposal and any resulting change(s) in cost of this project shall only be by way of written change order(s) and shall be valid only after being signed by ULL and Go Media, LLC. This proposal is valid only if accepted in writing and/or Purchase Order issued by ULL.

Workmanship/Labor warranty is valid for a period of 1 year from date of invoice. Labor warranty covers any workmanship faults, defects, or failures incurred during the installation phase of the project. This includes physical on-site installation as well as equipment configuration and programming. During the course of the warranty no fees will be assessed or charged for remote support, on-site technicians executing repairs, or travel time & expenses. Labor warranty does NOT cover repair or correction of issues caused by tampering of equipment by end users, contractors, or any other unqualified personnel. Additionally, equipment theft and damage caused by accidents, weather events, or natural disasters is not covered.

Equipment warranties vary per manufacturer as they are provided by the manufacturer. Minimum of 3 years repair coverage. individual warranty policies can be provided upon request.
